VB-GREEN-WD Esmeralda Finish, with Mahogany Tone Blades

Vent-Bettina

Sophisticated Silhouette that Blends Seamlessly

Engineered for both beauty and performance, this fan features quiet axial rotation with motor heads that can be infinitely positioned within 180-degree arcs, offering a mesmerizing dance of motion while ensuring optimal airflow. The steeper the angle, the faster the rotation—allowing for a tailored breeze that enhances comfort with precision. More than just a cooling solution, the Vent-Bettina is a statement of innovation, circulating warmth in winter and refreshing air in summer far more efficiently than traditional paddle fans. Crafted from premium cast aluminum and heavy spun steel, this timeless piece is built to last, backed by a limited lifetime warranty.
